

EUROPEAN COMMISSION
DIRECTORATE-GENERAL FOR ENERGY

Directorate B - Internal Energy Market

Acting Director

Brussels, 26 November 2012
ener.b.3 JAV/LB/sc(2012)1632884

Dear Participants of the European Citizens' Energy Forum 2012

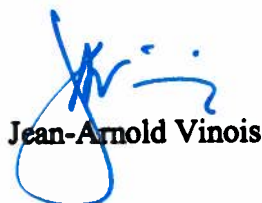

Let me first of all thank you for your participation in the 5th European Citizens' Energy Forum. This year's Forum had a high number of participants and many lively discussions. Without your help it would not have been such a success. The quality of presentations, discussions and the dialogue between audience and speakers was extraordinary and I appreciate very much your input and contributions.

The results are incorporated in the Forum conclusions, which I attach to this letter. Please note that the proceedings of the Forum are also available online at http://ec.europa.eu/energy/gas_electricity/forum_citizen_energy_en.htm

The Forum's conclusions reflect the subjects discussed and the diversity of views presented. They also provide guidance both for the way forward and the work to do next.

We at the Commission look forward to continuing our work with all stakeholders in the open and transparent manner that was demonstrated at this year's Forum.

Yours faithfully

Jean-Arnold Vinois
